602 206 504

South Point office building is unique in both its design and location. It is situated in one of Prague's most sought-after business addresses, Prague 4, and also right next to 5. Května, a busy highway which connects the centre of Prague with D1 highway to Brno. It is also, conveniently, only about 200 meters from the Budějovická subway station, shopping centre, and many restaurants.

South Point is very close to the other office and commercial areas in Prague 4, but its unique position also provides a lot of comfort and privacy. Large, openable windows with a beautiful view of Prague also amount to the special atmosphere in the building.

Total office space is 7.510 sqm and office sizes vary from 150 sqm to 840 sqm. There are 131 parking spaces in the building. We can adjust the floor plan according to your demands.
